NEW COURSES AT G. U. H.

AUTOMOBILE CURE AND OXY-ACETYLENE WELDING ADDED TO MECHANICS ART DEPT.

After a wait of five years the Mechanical Arts Building of Glendale Union High School has been provided with a system of electric lights which will make possible its use in the evening as well as the daytime when needed.

Arthur R. Oliver, director of the Department, reports that it has a full enrollment and all the students that can be taken care of. The new auto course which has been added to the curriculum heretofore provided is especially popular and so many applications for that work have come in that some students had to be denied.

Glendale people should feel a pride in the fact that the auto course will be as good as anything offered in Los Angeles and will represent forty weeks of work. The student who takes it will be equipped to have complete charge of the family auto or to enter a garage as a workman at good wages.

In this connection Mr. Oliver is most anxious the general public should understand that this course in which there is great interest on account of the almost universal use of motor cars, will be open to all citizens regardless of age, without charge, either morning or afternoon. The same is true of other courses provided by the department. Any such special student will be permitted to take such work as he needs and in addition one or two subjects in the academic departments. This will enable any man in Glendale seeking mechanical training to gratify his desires.

Changes have been made in the machine shop to make room for the storage of cars. Several old engines have been purchased and are being placed on the blocks by students. These will be used for demonstration (Continued on Page 4)

WILL BUY 430 BRICKS

The "Penny Social," given by the Congregational Sunday School classes of Miss Smith and Mrs. C. M. Van Dyke last Saturday night was a great success financially and also as an entertainment. The astonishing sum of \$43 was realized from the sale of refreshments of cake, ice cream, candy, etc., at a penny a helping and from the evening's entertainment which included stories told by a representative of the Los Angeles Library, fortune tellers and other attractions. More than 5000 pennies were turned in. The proceeds will be used to buy bricks for the new church for which each class has made subscriptions. The two classes named have undertaken to buy 650 bricks, which means \$65, so they still have \$22 to raise.

FALL PRESBYTERY

The fall Presbytery is meeting today at Burbank, the convention opening at 10 a. m. Rev. W. E. Edmonds and George Lemon are representing the Glendale Presbyterian Church.

RUN OVER BY AUTO

WALLACE HAINES HURT AND BICYCLE SMASHED BY SERVICE CAR

Tuesday afternoon, at about 4:30, as Wallace Haines, of 212 West Lomita avenue, who delivers parcels for the H. S. Webb Dry Goods store after school, was going south on Brand, he was overtaken at Elk avenue by Earl W. Kingsley, driving the Ford service car. Earl says he sounded his horn repeatedly and edged over to the left, but Wallace, evidently confused, turned to the left instead of to the right, and ran directly in front of the car, which struck him a hard blow, knocking him off and smashing the wheel. In trying to avoid the smash Earl ran the car clear over to the left curb and brought up at the Lomita Ave. crossing of the P. E. J. F. Chandler, the real estate man, saw the accident and ran over. He and Earl lifted the boy into the service car and rushed him to the Glendale Sanitarium, where it was found that his right arm was bruised between elbow and wrist and the flesh badly lacerated at the wrist, but no bones broken. The hurts are not serious, but will be a long time in healing. Wallace, when asked by his mother to tell of the accident, said he did not remember anything about it. He was riding along on his wheel and the next thing he knew he was being lifted into the car.

MOUNTAIN FIRES

MOVING NORTH TOWARDS SANTA BARBARA AND EAST TOWARDS ARROYO SECO

Mrs. Chauncey K. Lake, of West Cypress street, in company with Mr. and Mrs. William Gould, visited Pacoima Canyon again last night, where Mr. Gould relieved the exhausted fire fighters to some extent by guarding the mouth of the canyon. Mr. Lake has not had his clothes off for more than a week, according to Mrs. Lake. Though the fire has swept on into Big and Little Tujunga, it will be weeks before it is burned out in Pacoima where the glowing embers make the canyon bright as moonlight. It is still perilous to explore because of the falling trees which precipitate avalanches of dirt and red-hot rocks. Mrs. Lake states that by strenuous work her home at the mouth of the canyon was saved, as were the cabins of Messrs. Gould and Fairfield, but the Peiley cabin was burned and one of the four houses on the acreage owned by Dr. Lucas and Mr. Lake about 25 miles up the canyon. Seven of the fifty houses in the canyon were burned, including the summer home of Mrs. Craig, the Los Angeles grocer.

The fire is now burning in all directions up and down the ridges from range to range, destroying the cover of the water shed which conserves moisture and retards the flow of winter rains. Mrs. Lake says there is great apprehension, not only because of the prospect of water loss (Continued on Page 4)

GLENDALE MAY BE IN DANGER

G. B. Woodberry, one of the Glendale City Trustees, who has had long acquaintance with conditions along the watersheds supplying Glendale and the little cities north of it with their water supply, returned at 11:30 today from the scene of the fire, reporting that it had reached the top of Sister Elsie Peak, but had there died down, owing to the cessation of the wind. All the men from the Verdugo Wash flood control work and as many as could be spared from the Public Service Department are now fighting the spread of the flames. Should a wind from the north arise Glendale will have to fight to save her water supply. The danger is right now and volunteers should be ready to go any time they are called. With the Verdugo Hills aflame Glendale would be in real danger.

BRIGHT PROSPECTS FOR WALNUTS

Clyde Bott reports that his walnut harvest will not begin until the second week in October, although nuts are beginning to fall. But the shaking of the trees will not be inaugurated until that date. Supposedly because of the lack of rain last winter, the nuts are smaller this year than last. Experts estimate that of the Southern California crop twenty per cent will be number twos. The yield is excellent, however, and they are likely to bring the growers as good prices as last year, viz., 25c, 28c and 30c per pound. Because of the high price of meat and many other articles of food quite a nut campaign is on in the east, Mr. Bott says, which is making a ready market for all California can produce. This week the foreman on Mr. Bott's ranch is marketing his crop of Phillips cling peaches and getting \$65 a ton for them as against \$45 last year.

RETURNS FROM CONVENTION

Rev. R. W. Mottern returned Monday from Oakland, Cal., where the California Lutheran Synod was in session last week. Sunday he filled the pulpit of the Oakland Lutheran Church in which the convention was held. It was an excellent convention, he says, and many things having to do with the progress of the denomination in this state were considered. He was elected first alternate delegate to the convention of the United Lutheran Church, which is to be held in Washington, D. C., in October, 1920. Rev. John K. Reed, pastor of the Lutheran Church in Phoenix, Ariz., who also attended the convention, is the guest of Mr. and Mrs. Mottern for a few days this week.

DEATH OF SIDNEY R. DIXON

Funeral services will be held this afternoon in Los Angeles over the body of Sidney R. Dixon of 324 South Verdugo who has been a resident of this city for about 13 years and who died of an apoplectic stroke. He was a native of Detroit, Michigan, and the remains will be shipped to that city for interment.

PRESIDENT TO DISCUSS STEEL STRIKE

BELIEVED HE WILL DECLARE THAT ANY FACTION REFUSING TO ARBITRATE ADMITS DEFECTIVE CASE

(Special Service to Glendale Evening News)
ABOARD THE PRESIDENT'S TRAIN, RAWLINS, Wyo., Sept. 24.—It is expected the President will express his views on the steel strike soon in a speech, following the same plan he adopted in the case of the Boston police strike. He discussed the Boston strike while speaking in the Northwest. It is expected he will declare that any faction, when it refuses to arbitrate admits its case is defective. It is also expected that he will condemn violence.

The President's train today continued to traverse sparsely settled country and the President slept late. He greeted a small crowd at Rawlins. He will speak this afternoon at Cheyenne, Wyo., and in Denver tonight.

FOREST RESERVE FIRES UNCHECKED

WATERSHEDS OF EVERY CITY BETWEEN SAUGUS AND SAN BERNARDINO IN DANGER

(Special Service to Glendale Evening News)

LOS ANGELES, Sept. 24.—More than one thousand fire fighters up to noon today had been unable to stem the sea of fire sweeping through the Angeles and Santa Barbara Forest Reserves.

After receiving reports from airplanes flying over the fire zone and from fire lookout stations, Supervisor Charlton declared the fires are still beyond control and that he saw no prospect of controlling them.

The watersheds of every city and town between Saugus and San Bernardino are in danger. The destruction of these watersheds would seriously impair and might destroy the water supply of more than a score of towns including Pomona, Ontario, Monrovia, Glendora and Pasadena.

In the San Gabriel Canyon region the fire was within three miles of Glendora and four miles of San Dimas, shortly before noon. It had driven the forest rangers from the San Dimas fire lookout.

Camps Bonita and Coldwater were encircled and it is not known whether their occupants have escaped. It is believed however, that no lives have been lost.

Late morning reports showed that the Mount Wilson Observatory which is seriously threatened is still intact and a crew of sixty men sent to that vicinity from Monrovia was making good progress in their preparations for back-firing.

Reports from Ontario showed that the fires in the San Bernardino mountains are still burning fiercely.

The city of Pasadena has a big force of fire fighters battling stubbornly on the divide in an attempt to keep the fires out of the Arroyo Seco. Up to noon their efforts had been partially successful but the issue was still in doubt. The fire in that region was not controlled.

Reports from forest reserves this morning showed that an estimate of 100,000 acres burned over is conservative. Calls have been sent to practically every city in this region for experienced fire fighters.

STEEL STRIKE SITUATION TENSE

BOTH SIDES CLAIM GAINS—CHICAGO POLICE REPORT RETURN OF 800 WORKMEN TO ILLINOIS STEEL MILLS

(Special Service to Glendale Evening News)

CHICAGO, Sept. 24.—The first violence of the steel strike in the Chicago district occurred when a shift was changed this morning. Four hundred strikers surrounded men leaving the Marks Manufacturing Company plant and a fight followed. Eight men severely beaten were taken to an emergency hospital. Extra guards have been thrown around the plant. The police said that 800 men had left the ranks of the strikers and returned to work in the Illinois Steel Company's plant, this morning.

ALBANY, N. Y., Sept. 24.—The Governor today ordered a company of state constabulary to Lackawanna where there have been disturbances in connection with the steel strike.

BUFFALO, Sept. 24.—The state constabulary and steel strikers clashed here this morning when the constabulary ordered a gathering of strikers dispersed. The strikers began congregating on the street corners and when ordered to move on answered with a volley of stones. The constabulary used clubs freely and the strikers scattered.

CLEVELAND, Sept. 24.—Strike rioting began here this morning when a crowd of strikers dragged several negroes going to work in the steel mills from a street car. In the fight which followed two negroes were severely beaten and were taken to a hospital. One striker was seriously stabbed. Six were arrested.

PITTSBURG, Sept. 24.—A general steel strike committee, which is meeting today, is seriously considering steps to force the withdrawal of the Pennsylvania state constabulary from the steel district. The strikers declared the constabulary had exceeded its authority and charge that the right of free speech has been denied them. The strike situation in the Pittsburgh district is unchanged. Reports showed that both sides claim gains in the Gary and Ohio districts.

INFLUENZA

DR. RAND LECTURES ON SYMPTOMS OF AND REMEDIES FOR NEW DISEASE

The medical lecture on "Influenza" by Dr. H. F. Rand, Sunday night, was well attended. The material for his lecture was based upon the reports from the highest medical authorities connected with the government. For those who would appreciate these reports in full as to the bacteriology and symptoms of the disease attention is called to the American Medical Journal of August 2 and 16, 1919.

A few of the points brought out were as follows: While the influenza germ has been named the medical profession is still in the dark as to the manner in which it is communicated, in spite of tests and experiments.

The period of incubation is variously reported by different authorities as from 24 hours to 3 days, and sometimes even 7 to 10 days. However, it is usually a very brief period. The initial symptoms are chill, prostration, fever, headache, backache, pain in limbs, muscular weakness, cough; sometimes nose bleed, abdominal pain, gastro-intestinal disturbance, sensitive skin, mental depression, eyes red and swollen, flushed face. The gastro-intestinal symptoms were rare occurring in one case out of 72.

The late form of the disease is manifesting itself in the form of a cold in the head similar to hay fever. The first measure to adopt is to go to bed, occupying a sunny, well-ventilated room. Drink plenty of water. (Continued on Page 4)

GLENDALE PLEASES NEW COMERS

Among the new comers who have recently bought property in Glendale are Mr. and Mrs. W. S. Kirk, who are living at 1129 East Colorado. Mrs. Kirk reports that they are delighted with our city and selected it after they had looked for a long time to make sure it was the kind of a location they wanted. They wished to be near Los Angeles, but not of it and Glendale fills the bill. They came to California from Texas about three years ago and resided on a ranch they owned at Corona. Since giving up their residence there they have spent some time in Hollywood. Their daughter, Mrs. T. W. Smith, and husband, are with them, and another daughter, who is supervisor of music in the La Habra schools, spends week-ends with them.

HIS OWN BUILDER, PLUMBER

J. W. Love, who recently came to Glendale from Clovis, New Mexico, has bought a lot and is building a four-room house at 615 Orange Grove avenue. He and his family are living in the garage and two tents until the house is completed. He had formerly lived in Oklahoma and Shelby county, Ill., where he followed the trades of contracting carpenter and plumber. He is doing all his own work and putting up his house more after the eastern style of construction. The floor joists are lapped in the center, and fastened at the ends by nails driven through the cross joists, instead of being toenailed. Each side and end frame was made complete, then raised to position. Mr. Lowe's method of construction makes floors and walls absolutely mouse-proof, which is too often not the case in small houses.

COLLEGE BOYS AND GIRLS

Miss Carol Willisford left Monday to begin her senior year at Pomona College. Quite a list of students went from here including Miss Jessie Shepard of 435 Pioneer Drive, Miss Helen Reynolds of Kenneth Road, William Taylor, grandson of W. J. Button of 207 West Lexington. William was graduated from Glendale High last spring. His parents live at Eagle Rock. He will be accompanied by another G. U. H. graduate, Harold Crane, a nephew of Mr. and Mrs. R. M. Brown of Kenwood street. Harold has just returned from a month's visit with his parents in Clear Lake, Iowa.

GARBENS MOVE TO PASADENA

Mr. and Mrs. Carl T. Garben, who have been residents of Glendale on Arden avenue for several years will leave Thursday to take possession of a home they have purchased in Pasadena, where they lived for several years. Their new home is at 655 Summit avenue, Pasadena.

WEATHER FORECAST: Fair except cloudy or foggy tonight and in the early morning near the coast.

SUCCESS IN POULTRY

SCHOOLBOY KEEPS UP STUDIES AND AT SAME TIME MAKES GOOD WITH CHICKENS

Donald, 16-year-old son of Mr. and Mrs. Bert Spears, of 718 East Acacia avenue, is doing a man's work in developing a paying poultry ranch and at the same time is attending school at Jefferson High, Los Angeles, where he is taking the Government course on poultry raising and feeding. The family came to California from Illinois 11 years ago, lived in Glendale a short time, then moved to Los Angeles, where Mr. Spears' work was with a big produce firm. They again moved to Glendale less than a year ago, locating on one of the Walton places, on Melrose avenue, where the son and his mother took up the poultry business. They were quite successful and, desiring to go more extensively into this occupation, acquired the D. K. Merrill place at 718 East Acacia and several hundred of his choice birds. They now have about 1100 hens and pullets, besides quite a flock of youngsters, both White Leghorns and R. I. Reds. Donald is determined to complete his course in school, so his mother helps with the work in the forenoon and he devotes all his after-school hours and Saturdays to it. He has built, unaided, a large poultry house, to hold several hundred hens, using material from houses they had on the place they sold in Los Angeles. There was already an up-to-date house 60x18 feet, on the place, to accommodate 500 hens, and several smaller houses for the Reds and young chickens. These houses are all equipped with convenient feed boxes, "water boys," scratching pens and nest boxes, so that care of the chickens is not onerous work. The large houses are built of tongue and groove timber, so as to avoid any drafts, which are so prolific of colds to chickens. A concrete cellar makes a fine incubator house and an electrically-heated brooder house, with three brooders, sufficient for 1200 chicks, adds to the equipment. One room in this house is used for storing feed and as a place for the cutting box, which prepares the alfalfa for the chickens' use. Don mixes his scratch and mash according to the Government's formulas and so far has had excellent results. The hens and pullets are laying less than 10 per cent now, as this is the heavy moulting season, but a daily output of 40 to 60 dozen is confidently expected in the height of the laying season next spring. If a 16-year-old boy with some assistance from his mother, can successfully run a poultry business with 1,200 birds to care for, a strong man should be able to care for a flock twice that size if he devotes all his time to it.

P. E. O. PICNIC

Chapter A. H. of the P. E. O. will be entertained Thursday by its absent member, Mrs. H. P. Goodwin at Manhattan Beach, where she has been spending the summer and where she is likely to remain for some time as the situation agrees with her. She is said to be much stronger, to have gained in weight, and is now able to swim every day. The ladies will enjoy a picnic lunch and Miss Tholen and Mrs. Eames will be guests of the chapter. The party, which will go by auto, will include Mesdames Barker, Hobbs, Stephenson, Davenport, Smith, Bancroft, Webster, Van Etten, Carmack, Wattles and Tuttle.

NEWS FROM SHANGHAI

MRS. CHARLES GRIST RECEIVES POST CARD FROM HER SON, GEORGE GRIST

Mrs. Charles Grist is a happy mother. She this morning received several post cards from her son, George, postmarked Shanghai, and conveying the information that he is well and having a fine time. George has aspirations in the line of marine engineering. On the recommendation of friends whose advice he sought he shipped on one of the steamers of the Pacific Mail & Steamship Company to see whether he would be likely to like the life. He is en route for Holland and this is the first word his mother has had from him since he left here two months ago. By the time he reaches the land of the Dutch and the home of the ex-Kaiser he will probably know whether a seafaring life will have charms for him.

The Grist family is still looking for a house to rent and hoping to find one without being compelled to leave Glendale.

GLENDALE, CALIFORNIA, WEDNESDAY, SEPTEMBER 24, 1919

A NATIONAL BUDGET

The Detroit News says editorially: "Economy is a word that will be heard with increasing frequency from now on. It will be a big word in politics because there is a growing conviction that there must be a reaction from the prodigality of war time expenditures."

Lavish war expenditures have created extravagant legislative habits.

The way out is "not a senseless and unreasoning stoppage of appropriations but the introduction of a systematic method of regulating governmental expenditures."

Such regulation means a national budget legislation which will require the president to correlate all departmental requests before sending them to Congress.

Require Congress to consider these requests in a single joint committee.

Require a satisfactory accounting for expenditures after the appropriations are made.

GERMANS PREDICT ANOTHER WAR TO REGAIN LOST TERRITORY

By EDWIN W. HULLINGER
(United Press Staff Correspondent)

WITH THE AMERICAN ARMY OF OCCUPATION, COBLENZ. (By Mail.)—"Germany will begin another war—perhaps within 20 years, certainly in the following decade—to win back the territory lost in this war."

"The old regime will be back in power in Berlin in a few years."

These two predictions express the almost unanimous conviction of the German population in the American-occupied zone along the Rhine. They were repeated to me time after time by citizens of every class, occupation or grade in life.

They are almost the only two issues concerning which there is absolutely no difference of opinion in "Uncle Sam's Germany." For on most matters the Rhineland presents a distressing bewilderment of thought.

Thus spoke quiet farmers, leaning on their hoes in their fields, and obsequious shopkeepers, eager for the fruit of the proverbial American spending palm. Waiters, hotel porters, liverymen, well-to-do merchants, bankers, ex-officers, ex-privates, university students, laborers, pro-governmenters, anti-governmenters, monarchists or republicans—all answered as one man.

Many were unable to conceal their surprise that the question should even be raised.

Some gave answer sadly, as if resigning themselves to the inevitable; others, triumphantly, like a prize-fighter promising a comeback. Manner of delivery varied according to mood or temperament of speaker. But in what was said, there was no variation.

"The habit of obedience and submission to authority is too deeply drilled into the German mind to permit anything else—in this generation, at least," a well-bred, thinking young chap explained. He professed—and with convincing sincerity—a hatred of militarism and Prussianism from bitter personal experience. He hoped to escape it by going to America, as soon as he could learn English.

"The German people to-day are incapable of democratic self-government," he continued. "The nation is not accustomed to choosing for itself. It knows how to accept and obey commands from above. It does not possess the initiative necessary for self-rule. You cannot change an ingrained national trait in a few days. It will take a generation or two of education in a new school of thought."

"The Junkers will be back in control in two or three years—five at most."

"The average peasant reasons only in material results. He knows he was prosperous under the Kaiser. He was told everything. He was spared the trouble of thinking for himself."

"Now he has freedom—and hard times. He may enjoy his new liberty in a way."

My companion pointed to the "verboten" sign, lying face down on the turf of the beautiful Luisen Anlagen on the Rhine.

"That sign was upright before," he smiled. "Well, the peasant is glad it's down now. He enjoys walking on the forbidden grass."

"But when it comes to balancing these slight freedoms, accompanied, as he will be told, by adversity, against the sterner but more prosperous paternalism of the old days, I don't think there is much doubt as to his choice."

"That is the way the Junker agitators will put it up to him."

Few, however, thought the monarchy will be restored. All admitted such a step would involve dangerous international possibilities.

The general idea seemed to be the Junkers would come back, but wearing the formal costumes of Republicans, although the net result would be the same.

The certainty of the "next war" was equally as deep-seated in the minds of the Germans.

All agreed that it "must come" sooner or later as a natural course in human events.

"The German race is too tenacious to remain down long," a merchant declared. "It has been crushed repeatedly, always to rise again."

"We are down now. Have lost our colonies and large strips of purely German soil. (All insisted on this point—that the regions sliced from the Fatherland by the peace treaty were genuinely German territory.) We will rise again. And the next war will be a people's war. This one was a government affair. The people simply obeyed."

"The next one will be a fight demanded by the people themselves as a means of winning back their 'rightful heritage.' The motive force will come from below, not from above."

"Ach, it will be a REAL war!" real

FOR OTHER EARS

Golfer—"Missed the bloomin' thing! Well, what would you s'y to that, me boy?"

Caddy—"Wait till the lady passes, sir."

"Doctor," said the notorious tightwad, "do you think you can get this tooth out without causing a shock to my nervous system?"

"I'm afraid not," replied the dentist, dryly. "It will cost you a dollar."

ONE OF THE OLD SCHOOL

There's a curious old Joker we often times meet,
And you'll bring him to mind if you try,
And by his appearance, it's plain to be seen
He's a relic of the days that's gone by.

His clothes look seedy, grown green with age,
And show signs that they've been well worn,
And the making, and style, was the height of fashion.
A long time before we were born.

But though he's quaint looking and odd in his ways,
Don't by any means think he's a fool.
He's not quite so dull as you would take him to be,
He's all right; he's one of the old school.

Times have much altered since he was a lad,
And new notions are hard to embrace,
So it's not surprising, if the old fellow has been
Left a little behind in the race.

In his day he was doubtless as clever as you
And thought himself quite up to snuff,
But since then, has weathered many a stiff gale,
And his passage maybe has been rough.

And age and rough usage in time tells its tale,
And though now we're both sprightly and trim,
Yet if we had suffered as much wear and tear,
There's no doubt we'd have looked worse than him.

So don't exercise your sarcasm and try
To make jokes at the old fellow's expense,
For though it may show that you're gifted with wit,
It won't prove that you're gifted with sense.

Don't regard him as some sort of freak
And make him an object of sport;
For though he's quaint looking, and odd in his ways,
He's all right; he's one of the old school.

F. BOOTH,

Sept. 22, 1919. 318 E. Broadway, Glendale, Cal.

YOU TERRIBLE EVERETT!

"I seen that Tommy Jones today, mother, and I bammed the little boob on the dome."
"What terrible English, Everett! You should say, 'I saw Tommy Jones today, and I bammed the little boob on the dome.'"

THE MATHEMATICS OF IT

She had seven million dollars,
Placed in bonds and stocks and rents;
He had 'leven million dollars,
So they merged their sentiments.
Now they've raised a son whose value is exactly thirty cents.

TOO MUCH

Oh, Rip Van Winkle slept awhile,
Some twenty years or so;
When he woke up he found in style
Some things he didn't know.

The trolley cars he stood full well,
Faced autos by the score,
But when he struck H. C. of L.,
He sought the woods, once more.

—Kansas City Journal.

MOTHER NEEDS HOME TRAINING

"Ethel," said her mother, "have you been at my preserves, again?"
Ethel at once became very busy arranging her doll's hair.
"Mother," she replied, "when you were a little girl didn't grandma teach you, same's you love me, not to be too quisitive?"

Personals

Mr. and Mrs. H. H. Bullinger, who have leased the Payne House on Central avenue, are entertaining friends from Ohio this week.

Mrs. R. L. McCourt is having the pleasure of entertaining this week her mother and father, Mr. and Mrs. Dewey, who have come south from Hanford, where Mr. Dewey is postmaster.

Mr. and Mrs. R. M. Forbes, who have recently come to Glendale from La Crescenta, have bought property on Lincoln street at 415, the old Van Grove place. Their two little girls will attend the Broadway school.

Wm. Mitsch, wife and little daughter, Bernice, of Woodbine, Kansas, who have been spending a few weeks with the family of Rev. C. A. Cole, started for home today. Mrs. Mitsch and Mrs. Cole are sisters. Mrs. M. F. Elliott, mother of the two ladies named, who came out with the Mitsches, will remain for the winter.

Miss Margaret Lusby, of North Jackson street, has returned from a Los Angeles hospital where she underwent an operation for the removal of her tonsils last Saturday. She is doing nicely and expects to be able to be well enough to take up work at the University of Southern California next Monday in a liberal arts course.

Mrs. Homer Ford and her mother, Mrs. Harris, of Denver, Colorado, were Sunday guests of their old friends, Mr. and Mrs. A. A. Barton, of 630 Howard street, who took them for a long auto ride around Pasadena and Glendale. The visitors are touring Southern California and will be in this part of the state for several weeks.

Rev. and Mrs. E. H. Willisford and their daughters, Carol and Joy, were dinner guests last Thursday evening of Mr. and Mrs. W. H. Yarrick, remaining for the evening. Saturday they were entertained at dinner by Mr. and Mrs. Pierre Potter of West Broadway in celebration of the fifteenth wedding anniversary of the Potters.

N. C. Gibbs' 6-room bungalow at 109 North Cedar is nearing completion and will probably be ready for occupancy the first week in October. The front is modeled on a plan quite prevalent now, with the porch just wide enough to cover the front door. In Mr. Gibbs' house a pergola on either side adds novelty to the effect.

Mrs. Wesley Bullis, who was a teacher for several years before her marriage and who loved the work, has returned to it after taking a summer course at the Normal to refresh her pedagogical powers and acquaint herself with late methods. She is now teaching in the Acacia School in this city with Miss May Cornwell who was once her pupil. The two ladies know each other well and the association will be pleasant for both.

C. E. Bickel, who recently bought L. B. Heacock's place at 630 East Lomita avenue, is now a regular reader of the Evening News. Eight years ago he established a bottling plant in Lathrop, Mo., which soon grew to such large proportions that he took in a partner. When he sold out his interest to come to California they were bottling and marketing 16 different kinds of soda water. He is mightily pleased with Glendale, though forced to live in cramped apartments until the house he bought is vacated and turned over to him.

Clarence Hupp, who was a lieutenant during the late war and instructor in aviation, was the guest for several days recently of Mr. and Mrs. Emil Fram of 348 West Windsor Road. When the armistice was declared and aviation instructors were no longer needed in the army, he secured his discharge and was taken on by the U. S. Shipping Board. Since the war ended he has been to South America and the West Indies. He is now on his way to the Atlantic Coast where work has been assigned him. He is only about 23 years of age and appears to have a bright and interesting future ahead of him.

MASONIC NOTICE

Unity Lodge, No. 368, F. and A. M., will confer the Third Degree, Saturday evening, Sept. 27th, commencing at seven o'clock. Masons cordially invited.

R. W. MASTERS, W. M.
A. W. TOWER.

Asa Bott, who recently returned from service overseas, has gone back to his old position with the Ducommun Hardware Company of Los Angeles.

Friends of S. E. Brown of South Maryland avenue report that he is gradually recuperating from his very serious illness and is now able to go about as usual.

Mrs. R. Roberts, of Maple avenue, who has been spending the summer at Hermosa Beach, has returned to make Glendale her headquarters though she will doubtless make week-end trips to the beach.

Vern Wilson hoped to start in at U. S. C. this week, but was needed to help his father, Harry A. Wilson, get started in the auto bus business, so he has put it off till the mid-year, expecting to enter at the February semester.

Mr. and Mrs. W. A. Tanner of 400 North Louise have as their house guest, Mrs. F. T. Redmond, mother of Mrs. Tanner, from North Platte, Nebr. She will also be the guest of her son, C. A. Redmond, of West Harvard street. They hope to persuade her to stay all winter.

Mrs. R. P. Jodon, of 224 South Louise was very happily surprised Tuesday afternoon when, on answering the doorbell, she was confronted by her sister, Mrs. O. J. Reel, of Santa Maria, and the latter's daughter, Helen, with a brand new husband, of whom Mrs. Jodon had not heard. He is Frank Stanton, until recently in charge of the Santa Maria Graphic. He has secured work in Los Angeles and he and his wife will live there.

Mr. and Mrs. C. M. Sudlow, of 214 East Garfield avenue are entertaining two young ladies from Newton, Kansas, Misses Esther and Helen Hagen, who drove their own Hudson car across the continent. They stopped en route in Colorado and made the trip from there in eight days, with no trouble except one puncture. It is a record of which their friends think they have reason to be proud. One of the young ladies is a graduate of a Chicago musical college. She is much pleased with what she has seen thus far of Southern California and may decide to locate and take up professional work here.

Miss Ellen Churchill and Miss Minnie Moulton of South Maryland avenue entertained at luncheon and for the afternoon this week Mrs. Frankenfield, who is at the head of the salvage work for the Children's Hospital of Los Angeles, a work no longer carried on by the L. A. Red Cross Chapter. Headquarters have been secured at 712 Maple avenue, Los Angeles, which have been donated until the first of the year. By that time it is hoped the enterprise will be sufficiently established to be financially able to pay its way if free quarters are no longer to be had. Mrs. Frankenfield has found great interest in the project and says that very nice donations have already been received. Mrs. S. N. Clark of North Louise has taken a bag and will probably do considerable work for the hospital here.

HOUSES RENTED BEFORE COMPLETED

W. F. Tower's house at 410 East Elk Ave. has just been vacated by E. F. McCallon and family and he will move it to the front and add to it. He has recently had an old house moved on to the lot just east of it and another on the lot in the rear, facing on Lomita avenue, and is having them remodeled. Two of the three houses are already rented and the people are waiting impatiently for their completion.

Protect the mortgage on the home with a policy in the Home Life Insurance Company of New York.

FIRE FIGHTING IN LA CANADA

Interest in La Canada now centers in the mountain fires. The flames last night crept up towards Sister Elsie mountain and threatened the watershed and canyon from which the community draws its water supply. Volunteer fire fighters are being sought and a party left this morning headed by Mr. Moses, the janitor, in the expectation of being gone several days. The group included C. F. Pate, Tom Hall, Fred and Chris Skow and a number of other men.

OLD NEIGHBORS ENTERTAINED

Mrs. C. B. Lane, who formerly resided in this city on Chestnut street, but is now living in Burbank, entertained with a needlework party old friends and neighbors from this city Tuesday afternoon. Her home was beautifully decorated with choice dahlias from her own garden, and quite an elaborate luncheon was served with dainty appointments. Mrs. H. G. Howeth acted as chauffeur for the members of the party, conveying them to Burbank in her new car. Other guests were: Mesdames Frank Ayars, Charles Parker and R. A. Puffer.

P-T. A. MEMBERSHIP CAMPAIGN

A meeting of the chairmen of membership committees of the various Parent-Teacher Associations of Glendale was held Tuesday at the home of Mrs. G. D. Roach, who is membership chairman for the P-T. A. Federation. Mrs. Clarence Daugherty of Artesia, who is District Chairman of Membership, was present, and was much delighted with the way in which the Glendale chairmen and their committee associates have gone to work as the reports showed that the association in one school has an enrollment of 63 and other committees are organizing for a strenuous membership campaign.

FIVE HUNDRED PARTY

Mr. and Mrs. John White Garver were honor guests Friday evening when their sisters, the Misses Read, of North Central avenue, entertained with Five Hundred. The large living room and dining room were attractively decorated with rose-toned asters and dahlias. The invited guests were Messrs. and Mesdames Seymour Thompson, H. V. Henry, Oliver Clark, Wilfred Teal, M. E. Plasterer, Willard Whedon, Roy Rishforth, Dr. and Mrs. James L. Flint, Dr. and Mrs. C. G. Farrow, Mrs. James Thompson, Misses Button, Cook, Coles, Messrs. Goss, Cheney, Roesch, Miles.

Mrs. H. V. Henry and Seymour Thompson were winners of the first prizes and Mrs. Roy Rishforth the consolation prize.

Mr. and Mrs. Garver are residents of Glendale now and making their home with Mrs. Garver's father and sisters.

NEW OFFICE FOR MERVYN MILLS

W. Mervyn Mills, who has been an accountant in the employ of the Glendale-Montrose Railroad for several years, has just been made secretary of the Sierra-Verdugo Water Company, which supplies La Crescenta, La Canada and Montrose residents with water. The office has heretofore been located in Los Angeles, but the company decided it would be a good move to transfer it to Glendale and Mr. Mills was made Secretary and Treasurer. He will maintain an office in connection with the railway company which has an indirect interest in the water supply of that district, and it will be a much more convenient location for the water users. There has been a good deal of complaint about shortage of water and the company is taking steps to clean out its wells and improve the system.

SUPPER FOR PRESBYTERIAN OFFICIALS

There will be a supper for the three official boards of the Glendale Presbyterian Church and the heads of departments tonight in the banquet room of the church. It will be in charge of Mrs. Lilly and an assisting committee. While the meal is in progress the guests will confer in regard to all departments of church work. It will be followed by the "Loyal Prayer Meeting," which Pastor Edmonds will conduct. These meetings are preparatory to the fellowship supper and Bible conference next Wednesday.

Would you rather leave your wife \$10,000 or \$50 a month for life? She would appreciate either.

The Home Life Insurance Company of New York provides this protection.

For information phone M. F. Smith, Glendale 2098-R. 14111

WOMEN'S CHORUS REHEARSAL

Mrs. Charles Parker states that the Women's Chorus which she is to conduct will meet for a preliminary rehearsal and general social good time at her home, 212 North Orange street, Monday afternoon. The regular rehearsals will not begin until the first of October. Any lady not a member who wishes to join should communicate with the secretary of the organization, Mrs. G. D. Roach, of Lomita avenue.

LA CANADA KINDERGARTNERS

Several La Canada mothers are sending little folks from their households to the Glendale Kindergarten at Doran Street School. They take turns in conveying the children by auto. The list of kiddies includes David Metcalf, Ben Hayman and Aldigh Johnson.

Advertise in Evening News.

NEW COURSES AT G. U. H.

(Continued from Page 1)

purposes. The department will also have several different makes of carburetors and ignition systems so the school will have apparatus enough to fully cover the course. It is very young yet and not all the equipment which will eventually be needed has been provided, but Mr. Oliver expects by the end of the second year to have a complete plant. It was in contemplation several years ago, but war conditions prevented its realization until now.

In connection with the forging work an oxy-acetylene welding plant has been added, an inexpensive one, but sufficient to enable students to get hold of this most important branch and one which can be used for demonstration purposes by all the departments.

The electric light equipment will pave the way for a night school in connection with Glendale High, wherein can be taught not only the courses in the Mechanical Arts Department—which include mechanical drawing, elementary or advanced wood-working, machine shop work, oxy-acetylene welding, and the new auto course, but other subjects as well, even sewing and millinery. When asked what steps would be necessary to secure a night school in Glendale, Mr. Oliver said it would depend on the demand. The High School equipment belongs to the people of the district and if they wish to use it sixteen hours out of twenty-four they can petition for the evening classes as they desire and the High School Board will undoubtedly heed the request. After the first year the school appropriation would cover this extra work. Glendale High has as good an equipment as any school in Southern California, Mr. Oliver declares. It has beautiful rooms, fine light and better facilities than many Los Angeles schools which are being patronized by Glendale people.

Mr. Beach, recently from Colorado, is now at the head of the Wood-Working Department. He is said to be a very well-informed young man full of new ideas which will make him a valuable addition to the teaching force.

INFLUENZA

(Continued from Page 1)

and fruit juices, and let the diet be very light and digestible, keep the bowels open, using an enema if necessary. Use nature's remedies and avoid the use of drugs.

An instance was cited where 160 patients were treated for influenza without the use of a single drug, with only one death, that due to double pneumonia. The physician in charge said he had the satisfaction of knowing that no lives were lost through drugs and he had co-operated with nature in the work of restoration.

Hydrotherapy, in the treatment of influenza, has proven a great success. The use of fomentations, hot blanket packs, foot and leg baths and packs followed by a quick, cold application, with brisk rubbing were indicated. The head should be kept cool by cold, wet cloths. Only a small part of the body should be exposed at a time. Avoid chilling of the surface. Those not familiar with these simple home treatments should be learning them now. Those who would like to have a demonstration given in their homes can obtain information relative thereto by calling Gl. 709-W.

To avoid taking influenza it is best to avoid crowds; also the use of public drinking fountains and public telephones. Wash the hands frequently, especially before eating and after handling things used by others—as railings, counters, etc.

Keep in the open air as much as possible. Conserve the health and strength by proper rest, exercise, food, sleep and bathing. Be cheerful and trust in God. One cannot consistently claim the protection of the Lord if willfully violating the laws of the physical being; but if the life is in conformity to these laws, then leave the results with Him.

WATCH

MOUNTAIN FIRES

(Continued from Page 1)

through this damage but of probable floods. An engineering camp in Pacoima which was doing work preliminary to the building of a big dam there was destroyed, and other camps performing similar work in the mountains have suffered the same fate. The northern wing of the fire is now moving on towards Santa Barbara while in the other direction it is threatening the Arroyo Seco. Two truck loads or about fifty men were drafted in Glendale yesterday to fight it in the Big and Little Tujunga. Similar drafts are being made in all the foothill towns. The fact that a strong wind carries the flames with incredible swiftness makes the task one of salvage rather than control. In one place yesterday the flames made an advance of six miles in thirty minutes, but the fact that they leap from crest to crest saves miraculously in some instances. Mrs. Lake says that while the underbrush in Pacoima Canyon has been burned out completely, the big trees in the rocky bottom where there was little for the fire to feed upon are still green though scorched, and will recover when the rains come.

At the present time the great anxiety is to protect the communities of Sunland and Little Landers and to save the watershed along the Sierra Madre Mountains from Pasadena to San Dimas. Men have been drafted from all the cities along that slope, from among the soldiers at Ross Field and from Los Angeles, to reinforce and relieve the hundreds of other men who have been struggling with the conflagration for the past week.

CERTIFICATE OF BUSINESS

Fictitious Firm Name

The undersigned do hereby certify that they are conducting a real estate and insurance business at 110 S. Brand Blvd., Glendale, California, under the fictitious firm name of Whiting & Hawkins and that said firm is composed of the following persons, whose names and addresses are as follows, to-wit:

Calvin Whiting, 342 W. Lexington Drive, Glendale, California.
Josias Hawkins, 420 E. Harvard Street, Glendale, California.

Witness our hands this 3rd day of September, 1919.

CALVIN WHITING,
JOSIAS HAWKINS.
STATE OF CALIFORNIA.)

County of Los Angeles,)

On this 3rd day of September, in the year nineteen hundred and nineteen, before me, Stella Smith, a Notary Public in and for said County, residing therein, duly commissioned and sworn, personally appeared Calvin Whiting and Josias Hawkins, known to me to be the persons whose names are subscribed to the within instrument and acknowledged to me that they executed the same.

Witness my hand and official seal.
(Seal) STELLA SMITH,
Notary Public in and for said County and State of California.
114Wed

"How old is your baby brother?" asked little Tommy of a playmate.
"One year old," replied Johnny.
"Gee!" exclaimed Tommy. "I've got a dog a year old and he can walk twice as well as your brother."
"Well, he ought to," replied Johnny; "he's got twice as many legs."

IN A BOOK HOSPITAL

As a "book doctor," Miss Rose Murray holds herself "directly responsible for the health and well being" of the eight million volumes in the New York City public library. Her work is thus described in an interview in the New York Evening World:

Young and good-looking, this book doctor spends her days in the cellar of the Public Library at Forty-second Street and Fifth Avenue sorting over the roomful of books, passing judgment on their usefulness, and, through her thorough knowledge of binding, reclaiming many thousands of volumes every year.

In her inspection of the thousands of invalidated and incapacitated books Miss Murray wears a surgeon's apron that completely covers her gown, a cheese-cloth veil with holes cut for the eyes, and white cotton gloves.

Thus equipped, she is ready to fight any "bookworms" or germs that might be lurking in the pages of the musty books.

I found Miss Murray in her cellar laboratory and asked her to tell me of her work. She modestly disclaimed anything unusual about her line of endeavor—although she is the only woman in the world doing just this sort of work—but as she diagnosed a table full of books, with a running comment to her staff of assistants, I gleaned something of the work accomplished by this interesting young woman.

Miss Murray illustrated how she arrived at her conclusions by picking up a volume from the table.

"This book cost between thirty and thirty-five cents to bind. It has been out only fifty times. This, you see, is much too expensive. Here is another book. Look at its record—out 208 times, and with a little thin bandage on some of its crippled pages it is ready for another round of visits. And so it goes. Books which are hopelessly stricken are retired from active life.

"So often," she said, "we find the outside better than the inside, the binding is in good condition, but the pages hopelessly soiled. A great deal depends upon the neighborhood the books visit. Many of the public-school pupils come to the library to do reference work; they are taught to regard the books as tools, to respect them, to give them the proper care. This has been a great help in preserving the books, and it is a rare occasion when any of the school-children return a frayed or soiled book nowadays."

"How do you fumigate the books?" I queried.

"It is not possible to fumigate a book," Miss Murray continued. "The Department of Health sends daily a list of contagious diseases in the neighborhood of the libraries, and if we find any names on our cards at the taboored addresses we notify card-holders not to return the books, as they will be called for by representatives of the Health Department. Little chests are provided for these infected books. The public has nothing to fear from possible contagion, as the strictest care is maintained in regard to this matter."

The task before this young woman is continuous and systematic. She goes over her charges with the same regular routine that marks the fire-escape inspection of the Fire Department.

And there is another respect in which Miss Murray probably holds a very unique record—she has probably opened more books than any other person in the world.

NEWS FROM OVER THE STATE

SAN FRANCISCO, Sept. 24.—The little island in the middle of the San Francisco bay, half way between this city and Oakland is going to cause disturbances in the football world this season, although yet far from real form. Goat Island promises to be the home of the goats of many grid teams this year. So far the Goat Island aggregation is a dark horse. Under the leadership of Lieutenant Francis Kutz, the gobs are going to it hammer and tongs to get in condition for future pigskin battles, following the unholy defeat at the hands of the Olympic Club. The beating is not going to discourage them, Lieut. Kutz says. He also wishes it known that the navy is still open for grid prospects.

VALLEJO, Cal., Sept. 24.—There'll be no marine football team for the 1919-20 season. Demobilization has wrecked the football team that once represented the west on the gridiron of the United States. The barracks on Mare Island has decided that whereas there is no possibility of a first class, go-get-'em organization, they do not want a team. No mediocre pigskin pushers can represent the marines it is decided. Talk of the organization of a team this year has died a natural death.

SI MUSTA LOST HEAVILY

Ezra Winrow—"I hear you swapped auttomobiles with Si Skinner yesterday. Who got the wust of the bargain, Hi?"

Hi Huskins—"W-a-l-l, the one I got thrust on me is sufferin' horribly from ague, an' balks quite a lot 'count uv missin' on each and every cylinder off an' on, but I heered this mornin' that Si is huntin' for the justice uv the peace in order to swear out a warrant for somebody!"

HE KNEW THEM

"I told you," said the merchant, "to mark this box 'Handle with care.' What's this gibberish you've scrawled on it?"

"That," replied the college gradu-

ate, "is the Latin for 'Handle with care.'"

"Huh! How do you expect a bag-gageman to understand that?"

"He won't, and therefore he won't get mad and smash the box."

ANNOUNCEMENT

The Glendale Sanitarium take pleasure in announcing that their dining room is now conducted on the European plan and is open to the public, especially to those who appreciate a good, clean, wholesome, vegetarian diet at very moderate prices.

Special Sunday Dinner Every Sunday

BACKWOODS CURRENCY

Into the general store of a village in Virginia there came one day not long ago a diminutive darkey, who laid upon the counter a single egg, and said:

"Boss, my mudder says please give her a needle for dis aig."

The storekeeper smiled. "Why," he said, "you can get two needles for an egg."

"No, boss," continued the darkey. "my mudder don't want no two needles; she says, please give me de change in cheese."

AEROPLANE FALLS, NO ONE HURT

An aeroplane came crashing to earth in an orchard at Altadena, Friday, and witnesses who ran to the spot expecting to see the mangled bodies of the occupants were mightily relieved to be saluted cheerfully by the supposed corpses, who explained that while that was not their usual style of landing they did so occasionally when something went suddenly wrong with their machinery and put it beyond their control. They were from March Field, Riverside.
